**AND NOW**, this   19   day of August 2015,

**WHEREAS**, the Delaware Department of Justice through the prosecuting Deputy Attorney General has filed with the Board of Medical Licensure and Discipline a written Complaint and Motion for Temporary Suspension; and,

**WHEREAS**, said Complaint and Motion allege, among other things, that the Respondent has engaged in activities that present a clear and immediate danger to the public health including, but not limited to, performing biopsies on a daily basis and punch biopsies and excisions on a weekly basis despite his license being placed on probation since October 7, 2014 and thereby restricted such that Respondent is not permitted to perform any biopsies or surgical procedures for at least five years; and,

**WHEREAS**, the allegations if substantiated at a formal hearing constitute unprofessional conduct under numerous provisions of the Medical Practice Act, including but not limited to, 24 *Del. C.* § 1731(b)(3) and (b)(17); and,

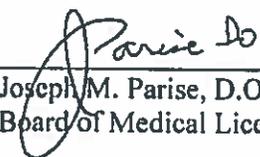

**WHEREAS**, Respondent and/or his legal counsel was given at least 24 hours' written or oral notice so that he or his counsel could file a written response in opposition to entry of an Order of Temporary Suspension together with a copy of the Complaint in compliance with 24 *Del. C.* § 1738(a); and,

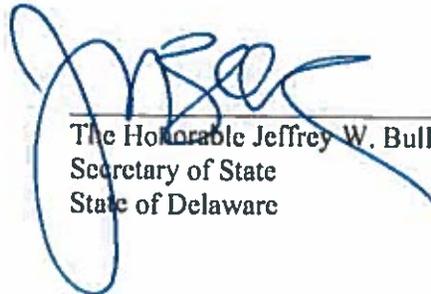

**WHEREAS**, Respondent did not file a written response to the motion for emergency suspension based on the State's complaint; and after due consideration of the Complaint and the

Motion, the Secretary of State or his designee with the concurrence of the Board President or his designee has determined that the available information is sufficient to support the entry of an Order temporarily suspending Respondent's license to practice medicine in the State of Delaware in that there is a reasonable belief that Respondent's continued practice presents a clear and immediate danger to the public health;
